

3 Medici Court
Scarborough Ont
April 15 /62.

Dear Jim:

While mailing the enclosed Lunar Bulletin on behalf of the Lunar Co-Ordinator, I thought I would enclose a short note.

Congratulations on the progress of the C & N. I hope that it continues to improve.

I have asked our Comet Recorder, Mr. Kurt Frenkel to contact you about the Programme and expect that he will do so. Comets are not our big interest as far as discovery goes, but we do observe those that come along. In this regard, we will have reports for you, probably by the end of April, on Seki-Lines, which has been observed here by at least 6 observers. On Fri. 20th we are holding a group observing session to work on the comet, weather permitting.

Mr. Frenkel can be reached at 8 YARMOUTH GARDENS,
TORONT. 4, ONT. in case he forgets to write to you.

Best regards,

Vern Rumsay.
