Dear Mrs. Fidler,

Enclosed is my suggested copy of Announcement No. 15, along with my mailing list. I do not usually send out two announcements on the same object, but in this case, the comet will be very well placed for several months, and I hope this will encourage more observations. I hope you can get all this on one page!

Sometimes, I do not hear from a supposed contact in a Centre for some time, and it is possible some of these addresses are incorrect. So if any Announcements are returned, could you please let me know? At times, someone will notify the National Office of a change in address, but fail to notify me.

As usual, would you please send me about a dozen copies.

Best regards,

Jim Low
