Nov. 14/91

Dear Sir.

It will give me much pleasure to show the two pictures of Jupiter, with what is apparently a shadow of the the great red spot, on Monday evening.

I return from here Monday morning & shall be at the Lucretia again. It is very kind of you to send for me and I shall be ready by quarter past seven - or half past if that is true enough - I will bring the slides with me & have only a few instructions to give to the lanternist.

Mr. Howells kindly called about the slide of Mr. Proctor and I think he will have it ready for Monday night.

Yours faithfully

L. D. Proctor.
