

CABLE ADDRESS:
ASTRONOMER, SAN FRANCISCO.

LICK OBSERVATORY.

University of California.

Mount Hamilton, Nov 25 1891

Dear Sir,

I beg to acknowledge your favor of the 9th inst. informing me of my election as Corresponding member of your Society.

With reference to the matter of printing anything of a personal character concerning myself, I see no necessity or special occasion for this. The observations I have made are presumably well known, since they have all been printed in the standard periodicals. These things were made the subject of an article in the Century magazine for, I think June 1889.

Yours truly
Th. C. Cannon
